

ABOUT US ——

Our instructors combined have more than 50 years of massage experience and more than a decade of teaching students, which equates to more than 50,000 massages and interacting with a multitude of concerns, injuries, and stress. This experience, combined with a nationally-endorsed curriculum, provides CLOVR School of Massage students with a strong foundation in which to build a solid and successful career as a professional massage therapist.

The CLOVR School of Massage curriculum is a robust 500-hour, Commission on Massage Therapy Accreditation (COMTA)-endorsed program. The nationally-recognized curriculum prepares students to take the MBLEx, a national certification exam. Our four-day a week daytime program is approximately four and a half months long.
